### **DETAILED ACTION**

#### ***Allowable Subject Matter***

1. Claims 1-3 are allowed.
2. The following is an examiner's statement of reasons for allowance: The main reason for allowance of claims 1-3 is that the prior art does not show or make obvious a neutral point voltage regulator of a torque sensor as shown in claim 1. Applicant discloses a neutral point voltage regulator comprising a regulating voltage calculating means arranged to calculate a neutral point regulating voltage based on a measured torque detecting voltage in a neutral condition after assembly of the torque sensor and a voltage regulating means arranged to regulate the torque detecting voltage based on the neutral point regulating voltage calculated by the regulating voltage calculating means. This limitation in combination with other limitations of the claims renders this case allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
